the coefficient of kinetic

Mon, 12 Nov 2018 13:09:00 GMT Physics Notes; Newton's Laws " Chapter 4 - Quia - that force. But the source of that force would be impossible to specify.

3. If the acceleration of an object is zero, then by Newton's second law, the net force must be zero. There can be forces acting on the object as long as the vector sum of the forces is zero.

4. If only once force acts on the object, then the net force cannot be zero.
