Furthermore, all LESER API safety valves are designed, marked, produced and approved acc. to the requirements of the following regulations (directives, codes ... Thu, 08 Nov 2018 15:09:00 GMT API - dmdirmark.com - Safety valves from the API product group meet all the requirements of API 526 such as standardized capacity, nominal diameter, and center to face dimensions which offers 100% compatibility. Because of their robust construction, they are especially suitable for being constructed from special materials such as Duplex, Monel, and Hastelloy. Mon, 22 Oct 2018 09:17:00 GMT Type 526 | LESER - The Safety Valve - The spring[3] is the key component ensuring the correct function of the safety valve. All relevant international standards are observed in its design and dimensioning. Production: All individual parts are manufactured on modern machining centres and CNC lathes [4]. This ensures dimensional conformity and a high surface quality.
